EDUCATION

Simon Fraser University

BSc, Data Science Major, Computer Science Minor

Burnaby, BC

September 2021 – June 2025

- Department of Statistics and Actuarial Science Award recipient: March 2024

TECHNICAL SKILLS

Languages & Cloud: Python, R, SQL, MATLAB, HTML, CSS, Javascript, Azure

Frameworks : Django, React, Node.js, Firebase, Pytest, PyTorch

Developer Tools : Git, GitHub, VS Code, Linux/Unix, MS Office, Power BI, Tableau, Google Analytics 4

Data & Tools: Scikit-learn, Pandas, NumPy, PySpark, A/B Testing, ETL/ELT

EXPERIENCE

Oxford Learning Richmond

Academic Tutor

Richmond, BC

September 2025 – Present

- Tutored **25+** students across core subjects including grade 11/12, AP, SSAT, and SAT preparation.
- Tailored teaching approaches to each student's learning style, driving **measurable academic progress**.
- Collaborated with center staff to uphold Oxford Learning's standards of excellence and ensure smooth daily operations.

Ocarina Studios

Data Analyst

Burnaby, BC

January 2025 – April 2025

- Built **end-to-end Python ETL/ELT** pipelines for data ingestion, transformation, and visualization, improving **reporting efficiency** over manual workflows.
- Performed time-series modelling to estimate customer lifetime value (CLTV) and forecast churn rate trends, informing marketing budget allocation decisions and enhancing **data literacy**.
- Optimized **SQL queries** using advanced joins and aggregations across marketing datasets, improving **reporting accuracy by 60%**.
- Developed interactive **Tableau** dashboards for **5+ stakeholders** using **Google Analytics 4** data, translating findings into actionable insights.

Data Science Student Society

Director of Events

Burnaby, BC

April 2022 – April 2025

- Elected Events Director with **61.3%** of votes, overseeing planning and execution of **Data Science focused** department events.
- Organized **5+** technical workshops, hackathons, and industry panels, connecting students with professionals.
- Increased **student engagement** across the department by driving cross-functional events with faculty and industry.

Statistics Canada

Statistics Analyst Intern

Montreal, Canada (Remote)

January 2023 – August 2023

- Deployed a **Python-based data storage** solution on **Azure**, cutting costs by **40%** and delivering results within **2 weeks**.
- Enhanced an address parsing tool using **Regex** pattern detection, identifying **365,000+** incorrect address formats and improving parsing accuracy.

PROJECTS

EV Adoption Prediction: ML on ICBC Vehicle Data | Python, Power BI, Scikit-learn

- Built **end-to-end Python pipelines** for data cleaning and feature engineering across **10,000+** records using **Pandas/NumPy** and **Scikit-learn**.
- Trained a **RandomForestClassifier** to surface **key purchase-driver segments**, achieving **87% predictive accuracy**.
- Delivered **Power BI dashboards** translating model outputs into **actionable insights** for non-technical stakeholders.
