EDUCATION

University of British Columbia

Vancouver, BC

Master of Data Science (MDS)

Simon Fraser University

Burnaby, BC

BSc, Data Science Major, Computer Science Minor

September 2021 – June 2025

- Department of Statistics and Actuarial Science Award recipient: March 2024

TECHNICAL SKILLS

Languages: Python, R, SQL, C/C++, JavaScript, MATLAB

Machine Learning: PyTorch, scikit-learn, Pandas, NumPy, PySpark

Databases & Systems: ETL/ELT, PostgreSQL, Firebase, Power BI, Tableau, Excel, Google Analytics 4, REST APIs

Version Control & AI: Git, GitHub, Linux/Unix, Claude Code, Codex, GitHub Copilot

Concepts: Computer Vision, Time-Series Forecasting, Hypothesis Testing, Probability, Statistical Modeling

EXPERIENCE

Oxford Learning Richmond

Richmond, BC

Academic Tutor

September 2025 – Present

- Tutored **25+** students in Grade 11/12 and AP coursework, alongside SSAT and SAT exam preparation.
- Tailored teaching approaches to match each student's learning style and pace by providing regular practice material and feedback.
- Developed a custom project-based **Python** curriculum to teach core concepts in programming, incorporating interactive coding exercises to reinforce concepts.

Ocarina Studios

Burnaby, BC

Data Analyst

January 2025 – April 2025

- Built a **CLTV Forecasting pipeline** in **Python** using historical marketing and financial data to establish baseline KPIs for an A/B testing campaign soft launch.
- Engineered data preprocessing workflows using **Pandas** and **NumPy**, applying time-series modeling to forecast churn rates and optimize marketing budget allocation.
- Optimized **SQL queries** using window functions across marketing databases, reducing query execution times and boosting **reporting accuracy by 60%**.
- Developed **Tableau** dashboards for **5+ stakeholders** using **Google Analytics 4** data to track user-acquisition metrics.

Data Science Student Society

Burnaby, BC

Director of Events

April 2022 – April 2025

- Elected Events Director with **61.3%** of votes to lead end-to-end planning and execution of department-wide technical and career events.
- Organized technical workshops, hackathons, and industry panels, connecting **200+** students with industry professionals and faculty.
- Boosted student participation by collaborating cross-functionally with faculty and alumni representatives and considering feedback.

Statistics Canada

Montreal, Canada (Remote)

Statistics Analyst Intern

January 2023 – August 2023

- Deployed a **Python-based ETL and data storage** solution on **Azure**, cutting costs by **40%** and delivering results within **2 weeks**.
- Enhanced an address parsing tool using **Regex** pattern detection, identifying and resolving **365,000+** incorrect address records and improving data validation accuracy.

TECHNICAL PROJECTS

EV Adoption Prediction: ML on ICBC Vehicle Data

GitHub

Python, Power BI, Pandas, NumPy

- Built **end-to-end Python pipelines** for data cleaning and feature engineering across **10,000+** vehicle records using **Pandas**, **NumPy**, and **Scikit-learn**.
- Trained a **Random Forest classifier** to identify key EV adoption drivers, achieving **87% predictive accuracy**.
- Designed interactive **Power BI dashboards** to visualize model feature importance and adoption trends for non-technical stakeholders.
